AVSC
ANTI-VORTEX SINGLE CHANNEL DRAIN™

VGB Compliant | Flush Mounted

ONE DRAIN CAN BE PLUMBED
WITH SINGLE OR **DUAL PUMPS!**

UNBLOCKABLEDRAIN.COM

Features

- » Available in two models, Single & Dual Inlet with flow rates up to 227 GPM.
- » Optional Hydrostatic Valve connection.

Benefits

- » **Unblockable** design – requires only **one drain**.
- » Designed with large opening for debris removal.
- » Requires no vent line or SVRS per ANSI/APSP 7 Standard.

Safety Engineered

- » **Certified by NSF® International** to the Virginia Graeme-Baker Act and ASME/ANSI A112.19.8a-2008.
- » List by NSF® 50.
- » Full compliance with anti-entrapment codes.
- » **Dual levels of protection** with the AVSC safety baffle providing a second level of protection in the event the main cover is removed.

New 10" Drain

Debris Removal

- » Only 10" VGB compliant drain designed & engineered for debris removal.
- » Dual levels of protection.
- » Designed for concrete pools.
- » Floor & wall use.
- » Mounted less than 1/2" above the surface.
- » Low Velocity.
- » Retro fit existing A&A 10" Drains to be VGB compliant.
